### Project Status and Comments

Status	Action Date	Followup Date	Action Needed	First Mid	Last	Comments	Updated
Inventory Only	01/31/2011	-	-	-	-	We are installing the new injection/remediation wells for the former owner (Capitol Castings now Victoria Technology, Inc.). The proposed injection wells are for the treatment of former gasoline leaking underground storage tank. Historic remediation was conducted, but, dissolved phase VOCs remained elevated in the source area. Therefore, the proposed remedial strategy is in-situ chemical oxidation using sodium persulfate. The injection wells and remedial strategy were approved by Thomas DiDimizio project manager and interim manager of the Arizona Department of Environmental Quality (ADEQ) Voluntary Remediation Program (VRP).
